Read the following text, then answer the questions:

Once upon a time, a king decided to give a reward to the person who had served his country the most. Many people went to the king's palace to watch that. A man brought a gold gun, another brought a box of jewellery and

a third brought an Arab horse to the king. But the king liked three other men the best. The first man was a clever doctor, the second man was a successful teacher and the third was a great scientist who made many discoveries. When the king thought which of the three men would get the reward, a woman came near to him. She told him that those three men were her sons and she came to see who would win the reward. The king, at once, gave the present to the woman because she had given birth to those great men. It was a beautiful, big house.

You won't believe that the people of the 21st century depend on technology. Just try to tell people that we no longer need mobile phones; they will laugh right away, won't they? Moreover, if you say that we no longer use email or social media, they will not believe you. We can even go shopping just sitting in one place; we can see and talk to other people, and events in the world reach us within seconds. Things like the refrigerator, air

conditioner, easier access to information, the internet, etc., made our life very comfortable, but this level of success comes with many disadvantages. Many teens spend more time on social media, internet surfing and playing video games, leaving their real lives. Modern technology has replaced a large number of human jobs; machines and robots are doing the same work that humans used to do. So companies may not need many human workers. Smartphones and computers distract children and teens from moral and educational values. Students can copy ready-made projects and homework from other sources.

Read the following text, then answer the questions:

One hot day, a thirsty crow flew all over the fields looking for water.

For a long time, she could not find any. She felt very weak, almost giving up hope. Then she saw a water jug on the ground. She flew down to see if there was any water inside. Yes! She could see some inside the jug. The crow

tried hard to push her head into the jug. Unluckily, she found that the neck of the jug was too narrow. Then she tried to push the jug down for the water to flow out, but it was too heavy for her.

The crow thought hard for a while. Looking around her, she saw some small stones. She suddenly had a good idea. She started picking up the stones one by one, dropping each into the jug. As more and more stones filled the jug, the water level kept rising. Soon it was high enough for her to drink. Her plan had worked!

In modern life, social media is developing fast. It is especially popular among the young. Addiction to social media has many serious effects, including poor study habits, living away from reality and bad health. First, addiction to social media makes youth have bad grades in studies. Many Many of them, who were excellent, have become bad. Every day, these students come to class, but they do not focus on studying. Moreover, at home, these students

do not exercise or read the new lesson before going to school, because they are busy with social media. Secondly, these young people can live far away from reality. They will not have time for outdoor activities such as playing sports or camping. Instead of going out to meet friends or talk to their parents, they love chatting with friends on social media. And last but not least, using social media too much will have a serious effect on health. They will go to bed late to read news on Facebook or chat with friends. Staying up late is really harmful to health, especially the brain.

Egypt has the most beautiful natural scenes, including the desert, green lands and pure natural pools. Egypt is visited by more than 14 million tourists every year. Sharm El Luli Beach is located in Marsa Alam. It is one of Egypt's most beautiful Red Sea places. The beautiful beach is a main place for people who travel to Marsa Alam because of its pure and clear blue waters. The underwater life with clean beaches makes it perfect for snorkelling. People love this place for its amazing sea life. You may also be lucky enough to meet the odd sea turtle during your snorkelling or diving trip.

The main attraction of the Sharm El Luli beach, which is also called Paradise, is its location in the middle of nature. Once you arrive there, you will see just why it gained its top spot on the Middle East beach rankings and the 22nd spot worldwide.

"I've come to the past to warn you, I'm a time traveller. You must know the truth before it's too late."

We looked at each other, nobody knew what to say. We were frightened, but we kept listening to him. "This information will change your life forever! And the thing is ..." Somebody shouted, "There you are!"

We saw a police officer running from the same corner. <u>He</u> put handcuffs on the man before he could escape. The officer said sorry to us for what happened. He explained that the man had been walking through the entire city, making jokes and scaring people. He apologised again and then both went away. Finally, we kept walking and we found a café called "Future". We spent all night laughing and talking about this funny and strange experience.

The Aswan Botanical Garden is home to thousands of birds and many plants come from many parts of the world, like Far East India and Africa. The Aswan Botanical Garden offers a beautiful escape from the city. It's on Kitchener's Island, to the west of Elephantine Island. It's one of two islands in the Nile near the city centre of Aswan, Egypt. The Aswan Botanical Island is divided into 27 squares which look like a chessboard. A number of rare palm trees can be found there on the island.

The only way to reach the Aswan Botanical Garden is by boat, either on one of the public ferries or by felucca tour while sightseeing this beautiful part of the Nile River. The Kitchener's Island has three entrances. The main entrance of the Island is on the northern end of the island. The best way to see the whole island, without having to walk a lot, is to enter the main entrance and walk the full length of the island until you reach the southern end; book a felucca from there and ask the captain to wait for you at the other end.

Planning a great community service project doesn't need a lot of work. There are many ways you can improve your community with groups, big or small. Collecting food is the main one. Contact your local food bank and they will provide you with the necessary information and materials to have a food drive. Encourage people to donate their favourite food items. Starting a recycling programme is a big task. When you recycle, those items can be turned into amazing things. A community garden is a great way to communicate with your community and provide healthy food.

Think of making a garden just for children, so they can learn about the process of gardening. A community cleanup will improve the look of your neighbourhood or park and encourage people to keep the space looking great. Donating blood can also help the community. It helps save many lives. Giving new coats to kids in need is a great way to serve your community. You select the school and hand out the new coats. Volunteering is a great experience that brings people of all ages together for a good cause.

Ismailia is a city in the northeast of Egypt. It's known in Egypt as "The City of Beauty and Enchantment." Ismailia is on the west bank of the Suez Canal, it is the capital of the Ismailia Governorate. The city has good weather. It has a population of 1,402,132 as of 2021. It is halfway between Port Said to the north and Suez to the south. It was founded in 1863, during the Suez Canal building, by Khedive Ismail, so it is named after him. The head office of the Suez Canal is in Ismailia, on the shore of Lake Timsah. It has a large number of buildings. Ismailia has several public and private schools. Ismailia is the home of the Suez Canal University, built in 1976 with the help of the Chinese government to serve the region aid of Suez Canal and Sinai. Ismailia owns a successful football club, Ismaily SC. The team has won the Egyptian League three times (1967, 1991, 2002), the Egyptian Cup twice (1997, 2000) and the African Champions League once (1969) as the first Egyptian Arab Club team to win this league.

"A short story you read"

My favourite story is *Alice's Adventures in Wonderland*. Alice is the main character in the story. She is a clever girl. She goes to Wonderland and meets a lot of interesting characters there. She meets the White Rabbit, who is always busy and in a hurry. The Cheshire Cat is a funny animal. He has got a big smile and he is very friendly. He tells Alice about Wonderland and helps her to find different places and characters. The Queen of Hearts is not very nice. She is a scary person. She is always angry and she shouts at people. Alice is brave, so she is not frightened of her. At the end of the story, all the characters help Alice, so she can go home again.

"A short story of a day you spent"

Last week, our school went on a trip to the Pyramids. It was my first time to visit and see the Pyramids. We start our journey at 7 a.m. in the morning. The bus takes 2 hours to reach there. I spent a very beautiful day there. I enjoyed riding a camel and a horse. There were a lot of tourists from all over the world. I spoke with them in English. Our great ancient Egyptians were really great builders and engineers. I knew that they built the Pyramids at first as tombs for themselves. We returned home at 9 p.m. in the evening. I advise all people to come to Giza and visit them. Really, you will enjoy it and learn a lot of things. It was a nice day.

I like handball very much. It is my favourite sport. I was so proud that the 2021 World Men's Handball Championship was held in Egypt. It was also the third World Championship held in Africa, the second in Egypt, and the first to be held outside of Europe since 2015. There were over 600 competitors from 32 countries.

The 32 teams were divided into eight groups of four teams each. It was a great event. The medical team has worked for months to make the tournament safe. Players and people working at the tournament have used four hotels and stayed inside a bubble. These hotels all have a health centre and every team has had a doctor to work with them.

"A review of online shopping"

We all know that shopping online is very useful because it has many advantages. It saves time and money. You buy what you want without moving. However, my opinion about that changed when I decided to buy a present online. I visited websites for electronics until I found this website. I ordered a toaster as a present for my mother on her birthday. The website said the delivery would be in two days, but the delivery arrived in two weeks. I opened the box and put it in the kitchen. It looked great and good, but when I plugged it in, it made smoke, then a fire. That was terrible. At once, I called them and told them I wanted to send it back. They were kind and they were sorry. After two days, a new toaster arrived.

"A review about a place you have just visited"

Last weekend, I went on a nice trip to Ismailia, which is between Port Said and Suez. The Suez Canal runs through the city before it reaches the sea. Ismailia is beautiful. There are attractive buildings, interesting monuments and lots of gardens. Around 350,000 people live here, but since traffic is slow, there isn't much pollution. Ismailia is peaceful, but it isn't boring! There are lots of things to do here, especially at the weekends. I go to Lake Timsah, which is near the city, with my family. It's a beautiful lake with beaches around it. There are some interesting museums in Ismailia! My favourite is the Natural Science Museum because I'm interested in animals. It was a nice trip and I enjoyed it there. It's a good place to go at the weekend.

We all agree that electronics are very important in our life. It makes our life easier and better. Our kitchen has modern items. I have an expensive kettle. I use it to get hot water. It is useful. I also have a microwave. It helps me cook food very quickly. It is expensive. My dad bought me a toaster last year. I use it to make bread turn brown. It is less useful than the microwave. It is also less expensive. I have a big fridge. I use it to keep foods and drinks cool. It is the most useful item in my kitchen. It is the most expensive, too.

Dear Peter,

Hi, I hope you are well. I'm sorry that I haven't sent you emails recently because we were busy moving back to our village after "The Decent Life Initiative" has improved it.

Let me tell you first what "Decent Life Initiative" means. It means a project to develop all the villages of Egypt.

In my new village now, we have a primary, a preparatory and a secondary school. I do not have to walk kilometres to go to my school every day.

The facilities are the best thing in our community, we have great shops and many job chances. The new health care centre has modern equipment. We have playgrounds where we can play volleyball, basketball and football. There is a place where families can enjoy being outside together. Now, we really live a happy decent life.

Yours, Emad.

Nearly everything we do in the modern world is controlled by computers. Computers are far more efficient than human beings and they have very good memories and can store huge amounts of information. In addition to that, computers can do calculations in a fraction of time and can do many of things we do, but faster and more accurately. That is why computers are widely used nowadyas.

Computers are used in many fields such as the field of health, arts and science. In the field of health, we use them a lot in medicine nowadays. With the help of computers, doctors can keep patients' records on a computer and any information about the patient can be got quickly and easily, besides working out what is wrong with a patient or the best treatment to give him or her.

In the field of science, computers are widely used in science, maths, history and literature. You tell the computer which subject you are interested in and it supplies you with information in seconds.

Last week, I asked the people in my class about their experiences. Most of them have played a (1) instrument. A few people have ridden people in the class have never travelled by plane. Half of the students in the class haven't been to a (4) match.

Read the following text, then answer the questions:

Colours are all around us. People see things in colour. The primary colours are red, green, yellow and blue. Each colour may be dark or light. Each person has his own favourite colour. Colours decide how people feel and think about the world around them. When people see their favourite colour, they feel happy and comfortable. Colours may make us positive about things we buy or the company

that makes them. People like different colours in clothes, cars, vegetables, fruit, accessories and shoes. Sometimes, colours help us organise our life, like the colours of traffic lights.

However, some people have a problem with colours. They have colour blindness. This means they find it difficult to tell you for sure that something is green, brown or red. Some animals see things in black and white. Some other animals, like the spiders, can see some colours that people cannot see. Cats and dogs can see blue

and green light better	than people.

How old will you be in 2030? Do you think life will be different then? Do you think you will have the skills that help you to face life challenges? To be ready for the future, you have to improve your skills like computing skills, problem solving communication and self-learning.

You should be ready physically for work and life by eating healthy food, doing exercise and having enough sleep at night. Your body needs food, exercise and sleep. It is also necessary to be ready by working hard to succeed and get the knowledge which helps you to enjoy your life.

It is also necessary to be open to different cultures and accept different points of view. **They** might be better than your own opinion. A successful person should be flexible. In addition, technology controls our life. That is why we should improve our technical skills. Once you have improved all these skills, you will be prepared for future jobs as well as future life.

There are many small steps in which we can save electricity. In summer, find times when you can open up the windows for air and cooling instead of switching on the air conditioners or fans. Use energy-saving bulbs as they are brighter and use much less electricity. When you are not charging electronic devices, disconnect them. Most importantly, installing solar panels can help you because they help in saving a lot of energy. Finally, some small changes in each home can make a big difference to the environment.

My name is Tarek. I do well in school and people think I am smart because of it. But it's not true. In fact, three years ago, I had some hard time at school. I used to watch video games and waste most of my time playing and chatting with my friends. However, I decided to get serious about school and made a few changes. First, I decided I would become interested in whatever I learn. Then I started to work hard every day and never **forget** any of my school work. I said to myself I would never be a loser. Finally, I made school more important than my friends and fun. After making these changes, I became an active student in classroom discussions. Then my test scores began to be higher. I still remember the first time that someone tried to bully me because "I was smart." How exciting! It seems to me that being smart is simply a matter of working hard and being interested. After all, I knew that playing a new video game is hard work, but it doesn't help you get successful or get a good job.

3 Read the following text, then answer the questions:

Should we work all the time without having a rest? The answer is that we can't continue working without stopping. From time to time, we need some rest to do some interesting activities. If we don't do that, we can make mistakes and our work might get worse. If we work all the time, we may lose the ability to think clearly and have no energy to continue working, so sleeping is very important. It renews our energy. Sports and games are also important, especially for people who stay in closed offices and are not able to do exercise.

Some activities such as swimming and walking may give them a lot of energy, so we shouldn't waste our weekends. We should try to forget all about our work, we can then enjoy ourselves. A) Choose the correct answer from a, b, c or d: b) tired c) healthy a) happy d) strong a) forget our work b) work more c) stay in offices d) make mistakes 3. Some activities give you more energy such as a) sleeping and smoking b) watching TV and playing computer games c) swimming and walking d) eating and staying home B) Answer the following questions: 4. Magdy Abdel Sayed is a campaigner for people who are disabled. He has been disabled all his life. He has done lots of amazing things, yet he has had lots of **challenges**. When he was a child, he couldn't move without help until he was five years old.

Some schools couldn't have Magdy as a student because they didn't have the right equipment for disabled people. Magdy really wanted to go to school and his parents wanted him to have a good education too. They found a school for him afterwards and he was an excellent student. Although, he faced so many challenges, he never stopped trying. He always believed that having difficulties does not mean you cannot reach your goals. He won an award from Cambridge University.

3 Read the following text, then answer the questions:

A lot of people admire famous persons such as scientists, film stars, sportsmen and writers. They love them and consider them role models, and often try to follow them. However, there are other heroes in our life. They may be less famous, but they play important roles in supporting their communities and providing a better life.

We should respect every active farmer who works hard from sunrise to sunset to grow our food, the brave soldier who is ready to die for his country; the clever doctor who works day and night to fight diseases and help sick people to become well; the honest teacher who works hard to prepare his students for a better life in the future; the good citizen who does social and voluntary work. All of these are good examples of the real heroes, who should get much love and respect.

Read the following text, then answer the questions:

Ali's father is a poor, clever fisherman who lives with his family in a simple house by the sea. Ali always goes fishing with his father. Once, he took their small boat and decided to go fishing by himself as his father was ill. Ali spent all the day at sea but he couldn't catch any fish. He began to feel sad and disappointed. However, he finally took off his clothes to have a swim and return home.

Unfortunately, his small wallet fell into the water with all his money in it. Ali jumped guickly into the water to look for his wallet but he couldn't find it. Instead, he could catch a huge fish. He carried it on his boat and went home. His father was happy with him, but Ali was still sad. Ali's mother started to cut the fish to make food for the family. Suddenly, she found her son's wallet inside the fish. She happily called her son and told him that the fish brought the wallet back for him.

Buying and selling is a part of everyday activities. People used to do this a long time ago. But shopping habits have changed a lot. In the past, you could deal directly with a person. These days, there is a new concept of shopping called "online shopping". Many people love to shop online which has many advantages. It saves time and effort. You can buy what you want anytime without moving. So, I decided to buy online. I ordered a microwave as a present for my mother on her birthday.

After two days, the delivery arrived at my house and I opened the box to put a new microwave in the kitchen. My mother was very happy with it because it was great and looked good in her kitchen and it was easy to use. It also made really delicious meals. The delivery was quick, too!

There are many reasons why people enjoy these challenges. One is curiosity. Another is the personal feeling of success and achievement.

Some challenges are not physical but social or mental. Leonardo da Vinci, was an Italian artist who painted the famous picture "The Mona Lisa". Also Albert Schweitzer. He was a French philosopher, physician and musician. So throughout history, people have accepted challenges. Today, we still have many challenges before us. Medical science faces the challenge of treating diseases. Engineers and planners must build new cities and new kinds of transport. Scientists must develop new forms of energy and there is always the challenge of space. We live in an age of challenges.

4 Read the following text, then answer the questions:

Reading is my hobby. I read storybooks, magazines and newspapers. This hobby started when I was a little boy. My parents used to read fairy tales and other stories to me. I started reading with simple ABC books. Soon I could read simple fairy tales and other stories.

Reading enables me to learn about so many things that I would not know before. I learned about so many things that I would not know before. I learned about how people lived in the **olden** days of magic and mystery. I learned about the world, space travel, human achievements, gigantic whales, tiny viruses and other fascinating things about our world.

The wonderful thing about reading is that I do not have to learn things the hard way. For example, I do not have to go deep into the jungle to learn about the tiger. I can read all about it in a book or on the internet. Books provide the reader with so much information and facts. They have certainly helped me in my daily life. It is indeed a good hobby.

A) Choose the correct answer from a, b, c or d:
1. To know about dangerous animals without having to go to a jungle, you can
a) read about them in a book or on the internet
b) go there to see them yourself

d) go to the zoo with your family
2. The underlined word "olden" means
a) the things that will happen in the future
b) the things that happen daily
c) the things that will never happen
d) the things that happened in the past
3. Reading is an interesting in addition to helping the person to
know many things.
a) problem b) invention c) hobby d) game
B) Answer the following questions:
4. What does the underlined pronoun "it" refer to?
Summarise the first paragraph of the passage.
6. How can we benefit from reading to plan for our future life?
